Chief Enforcement Officer

Note: An approval of this application by the Rome Zoning Board does not authorize the construction of the building without first obtaining approval by the Rome Planning Board and the issuance of a building permit. Contact the Rome Code Enforcement Office for further instructions.

CITY OF ROME ZONING BOARD OF APPEALS

Area Variance Application

IN THE MATTER OF THE APPEAL, OF 311 South Doxton St., Appellant (s):
for an Area Variance pursuant to Article VIII, Section 56 (b) of the Code of Ordinances of the City of
Rome, Chapter 80 and Article 5-A, Section 81-b of the New York State General City Law

TO THE CITY OF ROME ZONING BOARD OF APPEALS:

SECTION I (SECTION I TO BE COMPLETED BY ZONING OFFICER AND REVIEWED BY APPLICANT):

- A. The appellant (s) hereby appeals to the Zoning Board of Appeals of the City of Rome, New York from a determination of the Zoning Officer who, on the 30 day of April, 2020 did deny the application of the Appellant, said application affecting property at 311 S. Doxton St. in a C2 zoning district, in the City of Rome, and having been submitted to the Zoning Officer for the purpose of see attached Denial(s)

that such application was denied by the Zoning Officer insofar as it contained a proposed use not permitted or authorized and constituting a violation of Section 80-14.1 Schedule -12.2 of the Rome Code of Ordinances, Chapter 80.

- B. Area Variance Standard: Appellant recognizes that, pursuant to Article 5-A of the General City Law, §81-b(4), the Zoning Board of Appeals shall take into consideration the benefit to the appellant if the Area Variance is granted, as weighed against the detriment to the health, safety and welfare of the neighborhood or community by such grant. In making such determination the Zoning Board of Appeals shall also consider:

- (i) whether an undesirable change will be produced in the character of the neighborhood or a detriment to nearby properties will be created by the granting of the area variance;
- (ii) whether the benefit sought by the applicant can be achieved by some method feasible for the applicant to pursue, other than an area variance;
- (iii) whether the requested area variance is substantial;
- (iv) whether the proposed variance will have an adverse effect or impact on the physical or environmental conditions in the neighborhood or district; and
- (v) whether the alleged difficulty was self-created, which consideration shall be relevant to the decision of the board of appeals, but shall not necessarily preclude the granting of the area variance.

The Appellant recognizes that the Zoning Board of Appeals, in the granting of Area Variances, shall grant the minimum variance that it shall deem necessary and adequate to address the unnecessary hardship proven by the applicant, and at the same time preserve and protect the character of the neighborhood and the health, safety and welfare of the community by such conditions as it may deem reasonable under the circumstances.

SECTION II (SECTION II TO BE COMPLETED BY APPELLANT (S)---attach additional sheets and/or addendums as necessary)

* It may be in your best interest to seek the assistance of an attorney in filling out this Section.

**Explanatory Note(s) are for the sole purpose of helping you, as Appellant, understand the requirements necessary to obtain the Variance and shall not have any significance to your application or any denial thereof. These Notes are not intended as legal advice, nor are they to be relied on as the current state of the law.

A. Having fully reviewed the above requirements for the granting of an Area Variance, I hereby request such Area Variance in order to supersede the determination of the Zoning Officer denying my application for the following reasons (complete each paragraph below):

Note: In making application to the Zoning Board of Appeals for an Area Variance, the Zoning Board of Appeals must take into consideration the benefit of the Area Variance to the Appellant and weigh it against the detriment to the community. In weighing said factors, the Zoning Board of Appeals must consider the five factors enumerated above. The Appellant requests the variance and presents information to substantiate the variance; however, it is the job of the Zoning Board to implement the test.

(i) whether an undesirable change will be produced in the character of the neighborhood or a detriment to nearby properties will be created by the granting of the Area Variance;

This area surrounding this location is already commercially zoned with an existing company's warehouses across the street on a dead end road.

(ii) whether the benefit sought by the applicant can be achieved by some method feasible for the applicant to pursue, other than an area variance;

The proposed use is consistent with the surrounding company's use. The project will not have any major impacts on noise, traffic, or environment because of the already existing warehouses & commercial use nearby.

(iii) whether the requested area variance is substantial;

The proposed development entails laying a concrete slab floor, a crushed gravel drive way, and the standup of a 24 x 25 ft steel structured garage / warehouse.

(iv) whether the proposed variance will have an adverse effect or impact on the physical or environmental conditions in the neighborhood or district; and

The expected impact of the proposed project will not have adverse or negative effect as the area is already being used in a similar manner by surrounding companies. The land on the same side where this project would be built has been family owned for more than 100+ years.

(v) whether the alleged difficulty was self-created, which consideration shall be relevant to the decision of the board of appeals, but shall not necessarily preclude the granting of the area variance.

No. The neighboring property abutting this location is family owned and was already commercially zoned. This land was purchased purposefully. I am seeking appeal to begin developing as intended.

B. I hereby attest that no previous appeal has been made for the Area Variance requested herein.

Sworn to before me this 27th Day of May, 2026.

Part 2 - Impact Assessment. The Lead Agency is responsible for the completion of Part 2. Answer all of the following questions in Part 2 using the information contained in Part 1 and other materials submitted by the project sponsor or otherwise available to the reviewer. When answering the questions the reviewer should be guided by the concept "Have my responses been reasonable considering the scale and context of the proposed action?"

	No, or small impact may occur	Moderate to large impact may occur
1. Will the proposed action create a material conflict with an adopted land use plan or zoning regulations?	<input type="checkbox"/>	<input type="checkbox"/>
2. Will the proposed action result in a change in the use or intensity of use of land?	<input type="checkbox"/>	<input type="checkbox"/>
3. Will the proposed action impair the character or quality of the existing community?	<input type="checkbox"/>	<input type="checkbox"/>
4. Will the proposed action have an impact on the environmental characteristics that caused the establishment of a Critical Environmental Area (CEA)?	<input type="checkbox"/>	<input type="checkbox"/>
5. Will the proposed action result in an adverse change in the existing level of traffic or affect existing infrastructure for mass transit, biking or walkway?	<input type="checkbox"/>	<input type="checkbox"/>
6. Will the proposed action cause an increase in the use of energy and it fails to incorporate reasonably available energy conservation or renewable energy opportunities?	<input type="checkbox"/>	<input type="checkbox"/>
7. Will the proposed action impact existing:	<input type="checkbox"/>	<input type="checkbox"/>
a. public / private water supplies?	<input type="checkbox"/>	<input type="checkbox"/>

11. Will the proposed action create a hazard to environmental resources or human health?	<input type="checkbox"/>	<input type="checkbox"/>

Part 3 - Determination of significance. The Lead Agency is responsible for the completion of Part 3. For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

<input type="checkbox"/>	Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.
<input type="checkbox"/>	Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.
